EXPLANATION OF RELEVANCE

References AA-AK3, AP-AQ28, and AR-AU are references which have come to Applicants attention through prior art searches instituted by Applicants and/or as a result of patents identified in the corresponding German Application proceeding or in Germany nullity actions.

The references are enclosed. In those cases where the references are in German, a printout has been provided of an abstract relating to the respective reference. If a corresponding U. S. patent exists for the German patent, then that U. S. Patent has also been provided.
